 - (ii) in the case of the schools with an average daily attendance of 300 or more, the number determined by dividing the combined average daily attendance of those schools by 30 and making no allowance for any remaining fraction.

(4) For the purposes of determining the grant in respect of average daily attendance provided in section 10, "average daily attendance" for a board means average daily attendance of pupils for the previous year together with any additional average daily attendance to which the board is entitled under section 9.

9.—(1) Where, in the preceding year, a board operated for a term one or more auxiliary classes or units, the average daily attendance, as determined under section 8, shall be increased for that term by adding thereto,

- (b) four for each opportunity class, and each full-time speech-correction teacher;
- (c) one for each gifted-children class, institutional class and health class;
- (d) one for each school which used the services of an approved itinerant auxiliary teacher or teachers, and which is operated by the board in a municipality with a population under 25,000;
- (e) one for each home-instruction and orthopaedic unit;
- (f) one-quarter for each limited vision unit;
- (g) one-quarter for each opportunity unit in schools not served by an itinerant auxiliary teacher;

but,

- (h) the increase in average daily attendance under clause g shall not exceed one-quarter per school per term; and
- (i) the increase in average daily attendance under each of clauses e, f and g shall not exceed fifteen for the board per term.

(2) Where, in the preceding year, a board operated one or more industrial-arts or home-economics class-rooms for a term, the average daily attendance, as determined under section 8, shall be increased for each of those class-rooms by the number set forth in column 2 in accordance with the average daily attendance of all pupils attending the school in the preceding year set opposite thereto in column 1 as follows:

COLUMN 1	COLUMN 2

300 or more	$2\frac{1}{2}$

(3) Where, in the preceding year, the pupils of two or more schools operated by a board received instruction in industrial arts or home economics in one school operated by that board, the average daily attendance of those schools shall be added together for the purposes of subsection 2.

12.—(1) Where the whole of a public-school section, or a separate-school area, is transferred from one board to another, the grant for the former board for the year of the transfer shall be calculated as though there had been no transfer and be paid to the latter board.

(2) Where part of a school-section or a separate-school area is transferred from one board to another, for the year of the transfer,

- (a) the grant, exclusive of the grant calculated under subsection 1 of section 11, shall be calculated as though there had been no transfer;
- (b) the portion of the grant calculated in respect of the debenture instalment levied exclusively either on the part remaining or on the part transferred shall be paid to the board of the school-section or separate-school area in the part remaining or in the part transferred, as the case may be;
- (c) the remainder of the grant calculated under clause *a* shall be paid to each board in the proportion that the number of pupils, including those on whose behalf the board incurred fees, residing in the remaining part and residing in the part transferred, respectively, bears on the last school-day of September preceding the transfer, to the number of pupils, including those on whose behalf the board incurred fees, residing in the section or area being divided; and
- (d) where applicable, the grant under subsection 1 of section 11 shall be calculated in respect of the number of former sections or areas remaining in the larger unit of administration and be paid to the board of the larger unit of administration.

NEW BOARDS, BOARDS NOT OPERATING A SCHOOL, AND BOARDS COMMENCING OPERATION OF A SCHOOL

13.—(1) In the year in which a new board is established, other than a board assuming jurisdiction for school purposes of an area previously administered by another board, and in the next two years thereafter, provided that the newly formed board has not operated a school for a year, the average daily attendance and recognized cost of the current year shall be used for the purposes of this Part.

(2) Subject to subsections 3, 4 and 6, where, for a period of three years, a board has not operated a school, the recognized cost for the preceding year shall be used for the purposes of this Part, but shall not include a disbursement from current funds in the preceding year for a service received in the next preceding year, or years, upon which a grant has been paid.

(3) In the year in which a board commences operation of a school prior to the first school-day in September, provided that the board or any former board incorporated therein has not operated a school for a year, the average daily attendance and recognized cost of the current year shall be used for the purposes of this Part.

(4) In the year in which a board commences operation of a school on or after the first school-day in September and in the year following, provided that the board or any former board incorporated therein has not previously operated a school, the average daily attendance and recognized cost of the current year shall be used for the purposes of this Part.

(5) In each year following that in which a board has operated a school for a year, recognized cost shall not include a disbursement from current funds in the preceding year for a service received in the next preceding year, or years, upon which a grant has been paid.

(6) A disbursement for capital charges or for capital outlays from current funds shall not be included in recognized cost for more than one year.

MILK

14. The board of a public or separate school shall be paid a grant equal to 50 per cent of the amount expended in the preceding year for the purchase of milk for consumption by its pupils on school days between 8.45 a.m. and 4.00 p.m., and supplied to them free of charge, less that portion of any amount contributed for the purchase of milk from any source which is in excess of 50 per cent of the amount so expended.

BOARDS APPOINTED UNDER SECTION 12 OF *The Public Schools Act*

15.—(1) Where a rural school-section is designated and a board appointed under subsection 1 of section 12 of *The Public Schools Act*, "recognized cost" means the total amount of money paid out of current revenue during the preceding year for the operation of the school or schools under the jurisdiction of the board, inclusive of tuition fees paid to any other board but exclusive of capital expenditures and expenditures for evening courses of study, textbooks, library books, milk, and rent, and less tuition fees received from any other board.

(2) The board so appointed shall be paid a grant of 50 per cent of the recognized cost as defined in subsection 1, but where the board operates a school in a sanatorium, a hospital or a centre for the treatment of cerebral palsy established under section 12 of *The Public Schools Act*, the grant shall be 80 per cent of the instructional salaries, 50 per cent of the tuition fees, and 50 per cent of the recognized cost for transportation as defined in subclause *i* of clause *d* of subsection 1 of section 7, of pupils going to other schools, as paid in each case in the preceding year.

PART 2

HIGH SCHOOLS, CONTINUATION SCHOOLS,
AND VOCATIONAL SCHOOLS

APPLICATION

16. This Part applies to general legislative grants in respect of high schools, continuation schools, and vocational schools.

INTERPRETATION

17.—(1) In sections 20 and 24, subject to subsection 2, "recognized cost" means,

- (a) the portion approved by the Minister for grant purposes of the payment, or of the amount set aside for payment, by a board from its current funds, or on its behalf by a municipal council, in the current year on principal and interest due in that year on debentures and capital loans other than those in respect of buildings, additions to buildings or equipment upon which a grant is provided by section 21;
- (b) the disbursement from current funds made by a board, or on its behalf by another board, during the preceding year in respect of tuition fees to another board for pupils attending a secondary school operated by that board and, where subsection 1 of section 23 is applicable, tuition fees with respect to the year preceding the transfer which are owed to the board of any former district transferred to a new district by any other board transferred to that district;
- (c) the portion of the cost approved by the Minister for grant purposes in respect of disbursements made by a board from its current funds in the preceding year, except as otherwise provided in section 24, for,
 - (i) transportation of pupils to and from school where their parents or guardians do not contribute directly to the cost of the transportation,
 - (ii) capital outlays for new buildings, for additions to buildings, and for equipment for new class-rooms,
 - (iii) capital outlays for school buses for the transportation of pupils, and
 - (iv) capital outlays for new heating-equipment, for new lighting, and for new sanitary-conveniences of a modern type, in schools already in operation where the average population of the municipalities within or partly within the high- or continuation-school district, whether or not only part of any municipality is included in the district, is under 3000; and
- (d) the total disbursements made by a board from its current funds in the preceding year, except as otherwise provided in section 24, in respect of,
 - (i) the fee paid for membership in the Ontario School Trustees' Council and the fee paid for membership in one member association of the Ontario School Trustees' Council,
 - (ii) restoration of insured school-property destroyed or damaged, but not exceeding an amount equal to the insurance proceeds received in respect thereof;

less current-fund receipts during the preceding year as follows,

- (e) amounts transferred to current funds from capital funds;
 - (f) insurance proceeds;
 - (g) proceeds from the sale of school buildings and equipment; and
 - (h) refunds and reimbursements connected with disbursements previously included in recognized cost.
- (2) Except where grants are payable under section 21, debenture charges and capital outlays from current funds shall form part of the recognized cost only in the proportion that the average daily attendance of all pupils attending the schools under the jurisdiction of a board, exclusive of the average daily attendance of pupils whose fees are payable by another board, bears to the total average daily attendance in those schools.
- (3) In this Part, "recognized extraordinary expenditure per pupil" for a board operating a secondary school means the quotient obtained by dividing the sum of the amounts recognized for grant purposes under this Part for debenture payments due in the current year, for capital outlays from current funds, and for transportation by the average daily attendance of all pupils that attended the school or schools operated by the board during the preceding year, but excluding the average daily attendance of those pupils whose fees are payable by another board.
- (4) In this Part,
- (a) "assessment" means,
 - (i) the assessment of all property, including any business assessment, rateable for school purposes in each municipality within or partly within the high- or continuation-school district, whether or not only part of any municipality is included in the district, as shown on the assessment roll on which taxes were levied for the preceding year, adjusted by the provincial equalizing factor, or
 - (ii) where money is received by the board under section 35 of *The Assessment Act* or clause b of section 5 of Regulation 31 of Revised Regulations of Ontario, 1960, the assessment as set forth in subclause i, together with an amount equivalent to that which, if levied upon at the rate of real-property taxation on the ratepayers of the high- or continuation-school district for school purposes, would result in taxes equal to the money so received by the board, adjusted by the provincial equalizing factor;
 - (b) "population" means the total population of each municipality within or partly within the high- or continuation-school district, whether or not only part of the municipality is included in the district, as shown by the assessment rolls on which taxes for the preceding year were levied, less the number of inmates of public institutions;

(c) "assessment per capita" means the quotient obtained by dividing the number representing the total assessment of the municipalities within or partly within the high- or continuation-school district by the number representing the total population of the municipalities, but where there is no assessment for school purposes, the assessment per capita shall be deemed to be \$2600; and

(d) "cost of operating" means,

- (i) the total of the disbursements for the normal operation of a board for school purposes, exclusive of payments in respect of principal, interest, and other charges on debentures and capital loans, paid out of current funds by a board or on its behalf during the preceding year, and
- (ii) payments by a board or on its behalf in respect of principal, interest and other charges during the current year on debentures and capital loans,

less current-fund receipts during the preceding year as follows,

(iii) tuition fees, and

(iv) reimbursement for the cost of education of pupils residing in a part of a territorial district that is not in a secondary-school district.

AVERAGE DAILY ATTENDANCE

18.—(1) Subject to subsection 2, "average daily attendance" for a board for the purpose of determining the grant in respect of average daily attendance provided in section 20, means average daily attendance of pupils in the school or schools operated by the board in the preceding year, exclusive of the average daily attendance of pupils whose fees are payable by another board but inclusive of any additional average daily attendance to which the board is entitled under section 19.

(2) For the purposes of subsection 1, the average daily attendance of a high or continuation school shall be not less than the figure computed by subtracting the average daily attendance of pupils whose fees are payable by another board and who attended the school from twenty, or in the case of a school on an island or in a territorial district, from forty.

19.—(1) Where, in the preceding year, a board operated one or more departments of agriculture for a term, the average daily attendance, as provided in section 18, shall be increased for each department by the number set forth in column 2 in accordance with the average daily attendance of all pupils attending the school in the preceding year set opposite thereto in column 1 as follows:

COLUMN 1	COLUMN 2
Average daily attendance of school	Number per term to be added
Under 100	5

(2) Where, in the preceding year, a board operated one or more industrial-arts or home-economics classrooms in a high or continuation school for a term, the average daily attendance, as provided in section 18, shall be increased for each of those class-rooms by the number set forth in column 2 in accordance with the average daily attendance of all pupils attending the school in the preceding year set opposite thereto in column 1 as follows:

COLUMN 1	COLUMN 2
Average daily attendance of school	Number per term to be added
Under 50	½
50 but under 100	1
100 but under 200	1½
200 but under 300	2
300 or more	2½

(3) Where, in the preceding year, the pupils of two or more schools operated by a board received instruction in industrial arts or home economics in one school operated by that board, the average daily attendance of those schools shall be added together for the purpose of subsection 2.

(4) Where, in the preceding year, a board operated one or more home-instruction units, the average daily attendance, as provided in section 18, shall be increased by one for each term in which the unit was operated.

PART 5

GRANTS FOLLOWING ANNEXATION

INTERPRETATION

35. In this Part, "annexation" includes amalgamation.

36. This Part applies to grants following annexation.

37. In the year in which all or part of a municipality is annexed to an urban municipality, the grants shall be calculated,

- (a) in the case of elementary-school boards, under section 12; and
- (b) in the case of secondary-school boards, under section 23.

38. Where the whole or part of a municipality is annexed to an urban municipality on or after the 1st day of January, 1949, and at the date of annexation there were outstanding debentures for one or more school buildings in that municipality or part, as the case may be, the payments on the debentures to the extent that they were eligible for grant for the board of the school-section, separate-school area, or high-school district in the area annexed in the year of annexation shall, except in the year of annexation, form part of the recognized cost of the public-, separate- or high-school board of the urban municipality and the grant thereon shall be calculated at the rate applicable to,

- (a) the board of the school-section, separate-school area, or high-school district in the annexed area for the year of annexation;
- (b) the board of the school-section, separate-school area, or high-school district of the urban municipality for the year of annexation; or
- (c) the board of the school-section, separate-school area, or high-school district of the urban municipality for the current year,

whichever is the greatest.

39.—(1) Where on or after the 1st day of January, 1949, but prior to the 1st day of January, 1958, an urban municipality having a population in the year preceding annexation of 10,000 or more, annexes an area in which the combined average daily attendance of public-, separate-, and secondary-school pupils resident in that area exceeds 20 per cent of the combined average daily attendance of public-, separate-, and secondary-school pupils resident in the urban municipality, there shall be paid to each board of the urban municipality an annexation grant per pupil as set forth in subsections 3, 4 and 5.

(2) Where on or after the 1st day of January, 1958, an urban municipality having a population in the year preceding the annexation of 9,000 or more annexes an area in which the combined average daily attendance of public-, separate-, and secondary-school pupils resident in that area exceeds 15 per cent of the combined average daily attendance of public-, separate-, and secondary-school pupils resident in the urban municipality, there shall be paid to each board of the urban municipality an annexation grant per pupil as set forth in subsections 3, 4 and 5.

(3) The annexation grant per pupil shall be 100 per cent of the amount by which the grant per pupil paid under this Regulation to the board or boards of the urban municipality in the year of annexation is exceeded by the grant per pupil paid in the same year in the annexed area, ascertained by dividing the grant paid in each case, exclusive of grants on debentures, on capital outlays from current funds, on sites, and on transportation, by the average daily attendance of resident pupils.

(4) Subject to subsection 6, in the second, third, fourth and fifth years following the annexation, the annexation grant per pupil shall be paid on the excess of the average daily attendance of resident pupils of the board of the urban municipality subsequent to annexation over the average daily attendance of the resident pupils of the board of the urban municipality in the year preceding annexation.

(5) Subject to subsection 6, in the sixth year following the annexation, the percentage of the annexation grant per pupil shall be reduced by 20, and in each year thereafter by 20 for each additional year.

(6) For purposes of the payment of the grant under this section, the ordinal numbers applying to the years following the annexation in subsections 4 and 5 apply as if the years 1958, 1959 and 1960 had not existed.

42. In the year in which all or part of a non-urban municipality becomes all or part of an urban municipality, the grants shall be calculated,

- (a) in the case of elementary-school boards, under section 12; or

43.—(1) Where, on or after the 1st day of January, 1958, an area comprising all or part of one or more non-urban municipalities becomes an urban municipality, there shall be paid to each board of the urban municipality a change-in-status grant per pupil as set forth in subsections 2, 3 and 4.

(2) The change-in-status grant per pupil shall be 100 per cent of the amount by which the grant per pupil payable to the board or boards under section 42 exceeds the grant per pupil that would otherwise have been payable under this Regulation, ascertained by dividing the grant payable in each case, exclusive of grants on debentures, on capital outlays from current funds, on sites, and on transportation, by the average daily attendance of resident pupils.

(3) In the second, third, fourth and fifth years following the change in status, the change-in-status grant shall be paid on the average daily attendance of resident pupils of the urban municipality.

(4) In the sixth year following the change in status, the percentage of the change-in-status grant per pupil shall be reduced by 20, and in each year thereafter by 20 for each additional year.

- (b) the assessment of the site as shown on the last revised assessment roll for the year preceding the year in which the title was received by the board, adjusted by the provincial equalizing factor for that assessment roll.

49. Where, on or after the 1st day of January, 1959, a board has received title in fee simple, free of encumbrance, to a school site the board shall be paid in the year following a grant of 50 per cent of the recognized cost of the school site.

50. Where, in the preceding year, a board sold a site, a deduction shall be made from the grant payable under this Regulation in the current year in the amount of 50 per cent of the assessment of the land as shown on the last revised assessment roll for the year preceding the year in which the site was sold, adjusted by the provincial equalizing factor for that assessment roll.

THE ENERGY ACT

O. Reg. 157/61.

 Pipe Line Code.
 Made—1st July, 1961.
 Filed—3rd July, 1961.

REGULATION MADE UNDER
 THE ENERGY ACT

1. Section 5 of Regulation 132 of Revised Regulations of Ontario, 1960 is revoked and the following substituted therefor:

- 5.—(1) Every company shall file with the Department its plan in writing of operating and maintenance procedures required by section 162.
- (2) Every company shall file with the Department any modification made to its plan of operating and maintenance procedures immediately the modification is made.

2. Part VI of Regulation 132 of Revised Regulations of Ontario, 1960 is revoked and the following substituted therefor:

PART VI

OPERATING AND MAINTENANCE PROCEDURES

162.—(1) Every company shall formulate in writing a plan of operating and maintenance procedures in accordance with this Regulation and shall,

- (a) instruct their operating and maintenance personnel as to the plan and ensure that such personnel are qualified to carry out the plan;
- (b) operate and maintain its facilities in conformance with the plan;

(c) modify the plan from time to time to reflect its best experience and changes in operating conditions; and

(d) keep detailed records of failures, leaks, repairs, tests, inspections, pressure recording charts, odorant concentration tests and other information relevant to the administration of the plan.

(2) In addition to any other consequence or penalty provided by the Act or this Regulation, where a company fails to comply with subsection 1, the company shall not install any new service in the period during which the failure to comply continues.

163. Where a leak, serious corrosion, impaired equipment or condition likely to cause impairment or other defect or latent defect is discovered and public safety is endangered thereby, the defective part shall be repaired or replaced immediately.

164.—(1) The plan of operating and maintenance procedures shall include a pipe line patrol program to observe conditions on and adjacent to the pipe line right of way, indications of leaks, construction activity and any other factors affecting the safe operation of the pipe line and its components.

(2) The patrols shall be sufficiently frequent to ensure the safe operation of the pipe line, having regard to the prevailing weather, terrain, size of line, operating pressures and class of location.

165.—(1) The pipe line patrol program shall include regular surveys for detecting leaks likely to affect public safety by an effective method, which may consist of,

- (a) gas detector surveys;
- (b) bar test surveys;
- (c) vegetation surveys;

- (d) pressure drop surveys; or
 - (e) testing exposed pipe or fittings by means of soapuds.
- (2) The frequency of leakage surveys shall be determined by the condition of the pipe line and by the density of the population and the consequences of an undetected leak.
166. The plan of operating and maintenance procedures shall include periodic inspections and tests to determine whether the methods used for control of corrosion are adequate and are properly maintaining protection to the pipe line.
167. The plan of operating and maintenance procedures shall include sound procedures for,
- (a) starting, operating and shutting down gas compressor units;
 - (b) periodic inspections for corrosion in gas compressor stations at intervals sufficiently frequent to discover corrosion before serious impairment of the strength of pipe or equipment has occurred; and
 - (c) the isolation of units or sections of piping for the purpose of maintenance and for purging the units or piping before returning them to service.
168. The plan of the operating and maintenance procedures shall include systematic periodic inspection and testing of pipe-type holders or bottle-type holders, providing for,
- (a) the detection of external corrosion before the strength of the holder has been impaired;
 - (b) periodic sampling and testing of gas in storage to determine the dew point of vapours in the stored gas that might cause internal corrosion or interfere with the safe operation of the storage plant; and
 - (c) inspection of the pressure control and pressure limiting equipment and periodic testing to determine if it is in a safe operating condition and has an adequate capacity.
169. The plan of operating and maintenance procedures shall include systematic periodic inspections and testing of pressure limiting stations, pressure relief devices and pressure regulating stations, sufficient to keep the company informed of,
- (a) their mechanical condition;
 - (b) their capacity and reliability of operation for the service in which they are employed;
 - (c) the pressure at which they are set to function; and
 - (d) the existence of dirt, liquids and other conditions that might prevent proper operation.
170. The plan of operating and maintenance procedures shall include systematic periodic inspection, servicing and testing of valves, including,

(2) Section 1 of *The Schools Administration Act* applies to this Regulation.

DATA FURNISHED BY THE MUNICIPALITY

2.—(1) The clerk of a municipality shall in each year furnish to each board having jurisdiction in the municipality, or any part thereof, information respecting the total of the commercial assessments, the total of the residential and farm assessments on which rates for the support of the board will be levied in that year and the amount due and payable in the current year for debt charges on debentures issued by the municipality in respect of the board.

(2) Where a county has issued debentures for the purposes of a board, the clerk of the county shall in each year furnish information to the board respecting the amount due and payable in the current year for debt charges on such debentures.

ESTIMATES FOR BASIS OF RATES

3.—(1) For the purposes of determining the rates, every board in preparing its estimates shall include the amount of debt charges due in the current year in respect of the board but shall not include the amount estimated to be derived in the current year from the school tax assistance grant.

(2) Every board that is supported by assessment in two or more municipalities or in one or more municipalities and territory without municipal organization, shall apportion its estimates as determined under subsection 1 in accordance with the provisions of the Act under which the board operates.

4.—(1) Where a board is supported by assessment in two or more municipalities or in one or more municipalities and territory without municipal organization, it shall apportion its estimated school tax assistance grant among the municipalities or parts thereof or territory without municipal organization in the same proportion as the residential and farm assessment on which taxes are levied for the board in the current year in each municipality or part thereof or territory without municipal organization, multiplied by the provincial equalizing factor applicable in each municipality or territory, bears to the total of such assessments so equalized.

(2) The provincial equalizing factors shall be those adopted from time to time by the Minister of Education for general legislative grant purposes for the current year.

ADJUSTMENT OF ESTIMATED GRANT

5. The estimated school tax assistance grant for any year after the year 1961 shall be increased or decreased, as the case may be, by the difference in the amount estimated and the amount actually received in the preceding year.

DETERMINATION OF RATES

7.—(1) Rates to be levied for each school board in each municipality and territory without municipal organization shall be determined in the following manner:

2. The difference in the rate to be levied on commercial assessment and on residential and farm assessment for the board in a municipality or territory without municipal organization shall be determined by multiplying the share of the school tax assistance grant for the board applicable to the municipality by 1,000 and dividing by the amount of residential and farm assessment assessed for the support of the board in the municipality or territory without municipal organization.
3. The rate to be levied on the commercial assessment shall be the rate determined under paragraph 1.
4. The rate to be levied on the residential and farm assessment shall be the rate determined under paragraph 1 less the differential determined under paragraph 2.

(2) Except in the case of public and secondary school boards that have jurisdiction only in territory without municipal organization, secondary school boards in the part of the secondary school districts in territory without municipal organization and separate school boards, the rates shall be determined by the council of each municipality for each board that has jurisdiction in the municipality.

WITHHOLDING OF DEBENTURE LEVY

8.—(1) The council of each municipality shall withhold from the amount levied and collected for a board sufficient funds to meet the annual debt charges payable in the current year by the municipality in respect of debentures issued for the purposes of the board.

The council of every local municipality in each year shall levy on the whole of the assessment for real property and business assessment for public, separate and secondary school purposes, as the case may be, according to the last revised assessment roll, the rates determined for each public, separate and secondary school board having jurisdiction in the municipality, or a part thereof.

APPORTIONMENT OF LIABILITY OF MUNICIPALITIES FOR SCHOOL SUPPORT

11. The school tax assistance grant shall not be taken into account in apportioning the cost of operation of any board among municipalities or parts thereof or territory without municipal organization.
